How the Hobbies Live

What are your hobbies? How much time do you spend on your hobby? One, two or three hours a day? In special hobby houses all around the world, people practise their hobbies at home 24/7!

A A skateboarder's dream

This Californian house is a skateboarder's dream! There aren't any straight walls in it, so it's possible to skate along the floor and up the walls. You get around the house on four wheels: from the living room, dining room and kitchen area to the bedroom and bathroom area. Then go outside and practise some new moves on the skateboarding area.

B A climber's paradise

This house in Osaka is perfect for climbers - there aren't any stairs! You use your hands and feet to climb up the high walls to the bedrooms upstairs. There are only two floors, and there isn't an attic, but it is possible to climb up to the roof. Then climb down to the front of the house and start all over again!

C A home art studio

But what if painting is your hobby? Are there any hobby houses for art lovers? Yes, of course there are. In this London house there's an art studio in the room under the hall. In the studio, there are some brushes and some painting tools. There's a desk, a canvas and a palette for painting in lots of colours, too.
