Mid-Term Exam

English Language • Grade 6 • Model 3 • 2026 / 2027

Name:	Section:	Mark: _____ / 30

Q.1 Read the text, then answer the questions below. **8 points**

Technology in Jordan

Technology is helping children in Jordan study in many ways. Online learning platforms let pupils take free courses in subjects like Maths and Science. Many schools are also using tablets, e-readers and interactive whiteboards to make lessons more fun and interesting for pupils. Some schools even have coding workshops (where pupils learn to give instructions to computers so they can do things) and robotics clubs! And there are also a number of organisations that support education and technology in schools, like the Queen Rania Center for Education and Information Technology.

More children now have access to the internet all over Jordan. This means they can explore different cultures and make friends from around the world. Apps are also helping them with English and other languages. For children with disabilities, tools like screen readers are helping them to learn more easily. The internet also means children can stay in touch with family and friends, even when they are far away!

Technology is helping children in Jordan learn, be creative and connect with others. How is technology helping you?

ENGLISH LANGUAGE TEACHER

1. What do online learning platforms let pupils do?

.....

2. Mention three devices that schools are using to make lessons more fun.

.....
