Q.1 Read the blog, then answer the questions below. **10 points**

How cardboard is like a bridge

Mustafa's science blog

1 Hello, everyone! Today, I visited a museum and found out a lot of amazing information about cardboard!

2 In 1879, a Scottish engineer called Robert Gair invented the cardboard box. In 1906, a cereal company started using very thin cardboard boxes for its cereal.

3 Today, we use cardboard boxes for many different things because cardboard is so strong.

4 Do you know why cardboard is so strong? Inside each piece of cardboard, there are a lot of triangles. Triangles are really strong: they can carry a lot.

5 I learned that there are triangle shapes everywhere: in bridges, in houses, on bikes and even on kites!
