Name:	Section:	Mark: _____ / 30

Q.1 Read the information texts, then answer the questions below. **8 points**

Endangered animals in the north

The polar bear

The future for polar bears is uncertain. The climate is changing. Every spring, the Arctic ice melts earlier and every summer there is less ice. The habitat of the polar bears may disappear. Nobody knows if they will survive.

Habitat: Polar bears live all round the Arctic, in northern Canada, Alaska, Greenland, Norway and Russia. In winter, ice covers the Arctic Ocean. The sea water around the land freezes, too. Polar bears hunt for food on the sea ice. In summer, when the sea ice melts, they live on the land but there is little food for them. They wait for the autumn when the sea freezes and they can go hunting again.

Appearance: Polar bears are the largest kind of bear. The male is about 2.5m tall and weighs around 500kg. The female is smaller, about 2m tall and weighs about 250kg. Their thick, white fur insulates them from the cold. Their feet are large and furry. They can walk across the snow easily. They can swim well, too, because their feet are partly webbed.

Diet: Polar bears hunt the seals that live under the ice in the Arctic Ocean. Seals make holes in the ice and they come up to breathe. The polar bear waits patiently by the hole. When the seal comes up, the polar bear tries to seize it in its powerful jaws.

Threats: Loss of sea ice because of climate change is the main threat to polar bears, but pollution from industry and oil spills also threaten them. In Russia, a new Arctic Park has been created. Here, polar bears will live in safety, protected from harmful industrial activity.

The sea otter

Sea otters live in the North Pacific Ocean. There used to be hundreds of thousands of sea otters but almost all of them were hunted and killed for their fur. The sea otter was nearly extinct and only 1,000-2,000 were left. A hundred years ago, hunting sea otters was banned. Now there are more than 100,000.

Sea otters live near rocky coasts of the North Pacific and stay about 1km from the shore. They do not have dens on land and they can spend their entire lives in water. They sleep on the sea and eat there, too.

The sea otter has thicker fur than any other animal. The outer fur is waterproof. The soft fur underneath stays dry and protects the otter from the cold water. Otters are between 1m and 1.5m long and weigh from 20kg to 40kg. The otters' back feet are fully webbed and they can swim well underwater.

Sea otters dive to find food. They have long whiskers that help them to find their prey in dark water.

0790146621

They eat snails, crabs and shellfish. They use stones as small tools. They hit the shellfish with a stone to get them off the rocks.

The biggest threat to sea otters is oil spills. If a sea otter is covered in oil, its fur cannot keep it warm and it dies of cold. Thousands died in 1989 when an oil tanker spilled 40 million litres of oil into the sea.

A. Answer the questions.

1. What covers the Arctic Ocean in winter?

.....

2. Where do polar bears live in summer? Why is it a difficult time for them?

.....

3. What insulates polar bears from the cold?

.....

4. Why were sea otters hunted?

.....

B. Write True or False.

5. The female polar bear is bigger than the male. **(True / False)**

6. Sea otters can spend their entire lives in water. **(True / False)**

C. Find from the text:

7. A word that means "the natural place where an animal lives": .....

8. A word that means "the way something looks": .....

Ishraq AL-KHAROUBI ENGLISH LANGUAGE TEACHER

Q.2 Match each word (1-5) with its English meaning (a-e). **5 points**

1. climate	a) having skin between the toes, which helps to swim
2. survive	b) dirt and harmful substances in the air, water or land
3. entire	c) to continue to live, especially in a difficult situation
4. webbed	d) whole; complete
5. pollution	e) the usual weather in a place

1. (.....) 2. (.....) 3. (.....) 4. (.....) 5. (.....)

Q.3 Complete the sentences with the correct word from the box. — 4 points

habitat • seals • threats • insulates • newborn • banned • spilled • shore

1. The Arctic is the natural ..... of the polar bear.
2. Polar bears hunt the ..... that live under the ice.
3. Climate change and oil spills are the biggest ..... to polar bears.
4. A layer of thick fur ..... the bear from the cold.

Q.4 Spelling: complete the missing letters. The meaning is given in brackets. — 3 points

1. coast _ _ **(near the shore)**
2. com _ c _ _ **(funny)**
3. fact _ _ _ **(true; based on facts)**

Q.5 Grammar — 5 points

A. Choose the correct answer.

1. In three days' time, two 4x4s ..... out from Sapporo on the island of Hokkaido.
   a) set b) sets c) will set
2. My cousin's coming over. I ..... her in the morning.
   a) meet b) met c) 'm meeting

B. Write questions about the team's plans. Use going to.

3. How long - they - spend - on the coast? **(going to)**

.....

4. What - they - film? **(going to)**

.....

C. Look at Holly's diary. Write what each person is doing. Use the present continuous for the future.

5. Ross - Tuesday - play basketball **(present continuous)**

.....

Q.6 Language practice — 2 points

A. Add -al or -y to make adjectives.

1. nature → ..... music → .....

Ishraq AL KHAROUBI ENGLISH LANGUAGE TEACHER

B. Complete the sentences.

2. The team hope they will catch a ..... of the sea otter.

Q.7 Writing	3 points

Use the notes to write a paragraph (a report) about the sea otter (80 - 100 words). Put the notes in this order: where it lives, what it looks like, what it eats, its young, threats. Give it a title.
Notes: North Pacific / rocky coasts, 1km from shore • thick fur, outer fur waterproof / 1-1.5m long, 20-40kg / back feet fully webbed • dives for food / snails, crabs, shellfish / uses stones as tools • pups born at sea / float on mother's chest • oil spills / more oil fields - future not guaranteed

Unit 3 Vocabulary • English - English

Word	Class	English meaning
appearance	*n*	the way someone or something looks
ban	*v*	to say officially that something must not be done
climate	*n*	the usual weather in a place
diet	*n*	the food that a person or an animal usually eats
extinct	*adj*	(of an animal) no longer existing anywhere
female	*adj / n*	a girl, a woman or an animal that can have babies
habitat	*n*	the natural place where an animal or a plant lives
industry	*n*	the work of making things in factories
male	*adj / n*	a boy, a man or an animal that cannot have babies
newborn	*adj*	just born
pollution	*n*	dirt and harmful substances in the air, water or land
region	*n*	a large area of a country or the world
reproduction	*n*	how an animal produces its young
seal	*n*	a sea animal with smooth fur that eats fish
shore	*n*	the land along the edge of the sea
snowdrift	*n*	a deep pile of snow made by the wind
spill	*v / n*	to let liquid flow out by accident; an accident like this (oil spill)
survive	*v*	to continue to live, especially in a difficult situation
threaten	*v*	to be a possible danger to someone or something
whiskers	*n*	long, stiff hairs near an animal's mouth
alert	*adj*	watching and ready to act quickly
bob	*v*	to move up and down on water
chest	*n*	the front part of the body between the neck and the stomach
den	*n*	the hidden home of some wild animals
entire	*adj*	whole; complete
floe	*n*	a large area of ice floating on the sea
fully	*adv*	completely
guarantee	*v*	to promise that something will certainly happen
harmful	*adj*	causing damage or injury
industrial	*adj*	connected with factories and industry
insulate	*v*	to protect something from cold or heat

AL KHAROUBI
0790146621

mammal	*n*	an animal that feeds its babies on milk
partly	*adv*	not completely; in some ways
patiently	*adv*	calmly, without getting angry while waiting
polar	*adj*	of the North or South Pole

Unit 3

Q.1

1. Ice.
2. On the land. Because there is little food for them.
3. Their thick, white fur.
4. For their fur.
5. False
6. True
7. habitat
8. appearance

Q.2

1. e) the usual weather in a place
2. c) to continue to live, especially in a difficult situation
3. d) whole; complete
4. a) having skin between the toes, which helps to swim
5. b) dirt and harmful substances in the air, water or land

Q.3

1. habitat
2. seals
3. threats
4. insulates

Q.4

1. coastal
2. comical
3. factual

Q.5

1. c) will set
2. c) 'm meeting
3. How long are they going to spend on the coast?
4. What are they going to film?
5. Ross is playing basketball on Tuesday.

Q.6

1. natural, musical
2. glimpse
