Q.1 Read Andy's diary, then answer the questions below. **8 points**

The land of fire and ice

Sunday 19th June

Dad and I have just arrived in Iceland - the land of fire and ice! I am really looking forward to this holiday. I'm going to write everything down in this diary. When we were flying over the island we could see the volcanoes and the glaciers. None of the volcanoes was erupting. I would like to see an eruption - it would be thrilling - but active volcanoes are dangerous. Tomorrow we're going to Hekla. It's an active volcano but it hasn't erupted for several years.

Monday 20th June

Today we climbed to the top of Hekla. We didn't go into the crater, though. There was snow on the ground but in some places the rocks were warm. The snow was melting and the rocks were steaming. Our guide picked up a small rock and told us about it. When the volcano erupts, the rock from deep under the ground comes out of the volcano. The rock is so hot that it is liquid. It runs down the sides of the volcano, then it cools and goes hard. It's called lava. It isn't smooth at all. It feels very rough and a bit sharp. Our guide's name is Ari. He's a student at the moment but he's going to be a geologist.

Tuesday 21st June

Today we saw a geyser - that's a kind of hot spring. About every ten minutes hot water went shooting up from the ground like a huge fountain. The water underground is heated by the hot rocks. First it bubbles then when it gets really hot it suddenly goes up about 10 metres high. Whoosh! What incredible power!

Wednesday 22nd June

We went to the top of a volcano, then we went down inside. The ground was steaming and there were lots of hot springs. There were noisy pools of hot bubbling mud, too! They're called mud pots. What weird sounds! A long time ago people believed in dragons and monsters. They thought they lived in volcanoes and now I know why. What a peculiar place!

Thursday 24th June

Today was terrific fun. We went to a gigantic pool outside. I thought the water would be freezing cold but it was like being in a warm bath! A hot spring feeds the pool. Tomorrow Ari's taking us to a glacier. This is the best holiday ever! (Andy)
