TopCity - the exciting new game

Amazing game! by Mariam Aljabi

This game is fantastic! I downloaded it onto my tablet and play it every day. In the game, you travel around a city looking for treasure. In every building, you have to click on an icon and solve a problem. These get more difficult, so you have to work harder. It's good to challenge yourself!

To move, you have to write instructions. It's like programming a computer. I'm learning lots of new skills! Now I can move around more easily. Last night I scored 50,000 points!

Positive points: 1 It was easy to start playing. First, I had to take a selfie and upload it, then I had to type a password. Then I could move around the city! 2 The graphics are really good.

Any negative points? The game isn't free, but I think it's good value!
