Name:	Section:	Mark: _____ / 30

Q.1 Read the text, then answer the questions below. **10 points**

An Amazing City in the UAE

Cities are big places where there are a lot of people and a lot of cars. That means they are often very hot and very dirty. So people are now designing green cities which are easier to live in.

Masdar City is a special new neighbourhood in Abu Dhabi, the capital of the United Arab Emirates. The designers are creating houses and buildings that are all new. The buildings do not use much energy because they use traditional materials. An example is the mosque. In the UAE, mosques used to be made of earth from the ground. We usually build new mosques using stone, but they used the same earth as traditional mosques to build the new Masdar City mosque. That is because the material keeps the building cool. The mosque also produces all the energy it needs using solar panels which take energy from the sun.

The buildings in Masdar City are very close together so that there is not much sun on the pavements. There are no cars and most of the roads are for walkers and bikes. You can also travel on electric buses. Some of them go under the ground!

Many school students visit the city on school trips. Teenager Hani Akel, 14, told us, 'This is such an exciting project. It's not only creating an amazing new city for people to live in. It's also using green technology that could really change our cities in the 21st century.'

A. Answer the questions.

1. Where is Masdar City?

.....

2. Why don't the buildings in Masdar City use much energy?

.....

3. How does the mosque produce all the energy it needs?

.....

4. Why are the buildings in Masdar City very close together?

.....

B. Write True or False.

5. Masdar City is near the capital of the UAE. **(True / False)**

0790146621

6. It is not very hot on the pavements of Masdar City. (True / False)

C. Find words in the text that mean:

7. using electricity, not petrol or oil: .....

8. a person between 13 and 19 years old: .....

9. things that create energy from the sun: .....

D. Find from the text:

10. A verb in the Present continuous: .....

Q.2 Choose the correct answer. — 10 points
